

24/7 to...

flights. I told no one I was traveling to these cities. I did purchase the tickets online. This is just one of many examples of when these terrorists engage in illegal surveillance. In fact, while I was penning this email the terrorists appeared to know I was as the attack level increased while I was. And this is a typical occurrence. I have an abundance of substantiating and corroborating evidence. The DOJ and the FBI are aware of this terrorist cabal but appear to be unwilling to prosecute. I have correspondence substantiating this that's about 10 years old. This begs the question so ask them!!

The most disturbing part of this terrorist cabal is that some of our police appear to use these weapons and tactics in an attempt to engage in some kind of criminal offense. This is way beyond disturbing!!
