

ELECTROMAGNETIC WEAPONS

APATHY

AGGRESSION

WIRELESS MANIPULATION OF THE HUMAN BRAIN WAS FIRST ACHIEVED IN THE 1950S BY DR. JOSE DELGADO WHO WAS A RENOWNED PROFESSOR OF PHYSIOLOGY AT YALE UNIVERSITY.

USING ELECTROMAGNETIC FIELDS DR. JOSE DELGADO WAS ABLE TO ALTER THE ELECTRICAL SIGNALS IN THE BRAINS OF HUMANS AND ANIMALS. HE COULD WIRELESSLY INDUCE DIFFERENT MOODS LIKE APATHY, DEPRESSION, MANIA, SLEEPINESS AND EVEN AGGRESSION.

DR. JOSE DELGADO WAS EMPLOYED BY THE OFFICE OF NAVAL RESEARCH AND WORKED ON PROJECT MKULTRA FOR THE CIA.

OFFICIALLY DECLASSIFIED CIA DOCUMENTS DISCUSS USING DELGADO'S TECHNOLOGY FOR "POLITICAL CONTROL"
