Help Support *Microwave News*

May 17, 2010

The Paper — E. Cardis *et al.* (The Interphone Study Group), "Brain Tumour Risk in Relation to Mobile Telephone Use: Results of the Interphone International Case-Control Study," *International Journal of Epidemiology,* 2010 (open access)
Supplementary Data — Appendix 1 and Appendix 2 (open access)
Commentary— R. Sarraci & J. Samet, "Call Me on My Mobile Phone … Or Better Not? — A Look at the Interphone Study Results," *International Journal of Epidemiology,* 2010 (open access)
Press Releases:
International Agency for Research on Cancer (IARC) — "Interphone Study Reports on Mobile Phone Use and Brain Cancer Risk" May 17
International Union Against Cancer (UICC) — "Interphone Study Reports on Mobile Phone Use and Brain Cancer Risk" undated
Audio of Press Conference, held at WHO Headquarters, Geneva, May 17

News Stories

Aftonbladet (Sweden) — "Mobiles Harmless — for All Adults" May 18
American Journal of Nursing — "Do Cell Phones Cause Cancer? —Caution Is Advised Until Better Research Is Available" September
Associated Press — "Study on Cell Phone Link to Cancer Inconclusive" May 17
The Australian — "Brain Tumour Link to Mobiles" May 17
Australian Broadcasting Corp. — "Study Probes Link Between Cancer and Phones" May 17
BBC (U.K.) — "No Proof of Mobile Cancer Risk, Major Study Concludes" May 17 (originally: "WHO Study on Mobile Phone Cancer Risk 'Inconclusive")
CNN — "Study Fails To End Debate on Cancer, Cell Phone Link'" May 18
CNN Larry King — "Study Looks at Possible Cell Phone Cancer

Link'" (transcript) May 17
Dagens Nyheter (Sweden) — "Mobiles Do Not Increase Risk of Brain Tumor" May 17
Daily Mail (U.K.) — "Long Conversations on Mobile Phones Can Increase Risk of Cancer, Suggests 10-Year Study" May 16
and "Talking on the Mobile Just 30mins a Day Linked with Heightened Risk of Brain Cancer" May 18
Environmental Health Perspectives (NIEHS) — "First Combined Analysis from Interphone Inconclusive" July 1
Expressen (Sweden) — "Mobile Phones Do Not Increase the Risk of Cancer" May 17
Le Figaro (France) — "No Increased Risk of Cancer with Mobile Phones" May 17
Financial Post (Canada) — "The Rubber Duckies: Rejecting the Good News" (comment) June 18
Financial Times — "Critics Hit at 'Flawed' Mobile Phone Cancer Study" May 18
Globe and Mail (Canada) — "Heavy Use of Cell Phones May Increase Tumor Risk: Study" May 17
and "Cellphone Safety Study Sends Mixed Signals About Usage" May 17
and "Worried About Cell Phones? What You Can Do" May 17
and "Give Up My Landline? No Thanks" May 19-20
and "Cellphones and Cancer: Watch That Thing by Your Head" (editorial) May 20-21
The Guardian (U.K.) "Mobile Phone Study Finds No Solid Link to Brain Tumours" May 17
The Independent (U.K.) — "Mobile Phones Do Not Raise Risk of Brain Tumours, Say Scientists" May 18
and "Steve Connor: Time To Call It a Day for All the Unfounded Hang-Ups About the Dangers of Mobiles" May 18
Jerusalem Post (Israel) — "Israeli Study Cautions Cellphone Users" May 18
Journal of the National Cancer Institute — "One Conclusion Emerges From Interphone Study: Controversy Will Continue" July 7 (subscription required)
Los Angeles Times (AP) — "UN Study on Cell Phone Link to Cancer Inconclusive; More Time Needed To Tell for Sure" May 17
Medscape — "Cell Phone Link to Brain Tumors — Still No Clear Answers May 18
Microwave News — "Interphone Points to Long-Term Brain Tumor Risks; Interpretation Under Dispute" May 17
and "Interphone's Provocative Analysis of the Brain Tumor Risks" May 17
Le Monde (France) — "The Link Between Mobile Phones and Cancer Is Not Proven" May 18
Montreal Gazette (Canada) — "Cellphone Cancer Study Inconclusive" May 17
and "HealthWatch: Evidence Does Not Connect Cellphones to Brain Cancers" June 1
MSNBC — "No Answer, Just Fuzz, from Cell Phone Study: After Decade-Long Study on Brain Tumor Risk, Findings Are Still Inconclusive" May 16
National Post (Canada) — "Cellphone Cancer Study Questionable: Scientist" May 17
and "How To Invent a Cellphone Cancer Scare" (opinion) May 21

Neue Zürcher Zeitung (Switzerland) — "No End for Risk Research" May 12
New Scientist — "Don't Hang Up: Cellphones Don't Cause Tumours (Probably) " May 17
Ottowa Citizen (Canada) — "Largest Study on Cellphone Use and Brain Cancers Inconclusive" May 16
The Press (New Zealand) — "Children 'Should Not Use' Cellphones" May 18
and "Mobiles Don't Kill" (opinion: Hayden Walles) July 27
Reuters — "WHO Study Has No Clear Answer on Phones and Cancer" May 16
and "Analysis: Cell Phone Cancer Study Shows Problems with Method" May 18
Science News — "Interphone Study Finds Hints of Brain Cancer Risk in Heavy Cell-Phone Users" May 17
The Scotsman (U.K.) — "Study Links Mobile Phone Use to Brain Tumours" May 16
Süddeutschen Zeitung (Germany) — A package of four stories on Mobile Phones and Brain Tumors: "Mobile Phones Reduce Brain Tumours,"
"A Clear and Persistent Picture," "In Search of Possible Errors" and "No Reason for Complacency" May 17
Svenska Dagbladet (Sweden) — "Criticism Is Directed Against Cell Phone Study" May 18-19
Sydney Morning Herald (Australia) — "Study On Cell Phone Link to Cancer Inconclusive" May 18
and "Sometimes, It's the Simple Things in Life that Strike a Cord" (opinion) May 22
and "Your Phone Probably Isn't Killing You" May 22
Telegraph (U.K.) — "Biggest Study Ever Reports on Mobiles and Brain Cancer" May 15
and "Mobile Phones: Is There an Epidemic on Hold?" May 21
Time — "Cell Phones and Cancer: A Study's Muddled Findings" May 17
Times (U.K.) — "Heavy Mobile Users Risk Cancer" May 16
USA Today — "No Strong Evidence Points to Cellphones as Brain Tumor Risk" July 14
Voice of America — "Study Finds Small Increase in Brain Cancer with Excessive Mobile Phone Use" May 18
Wall Street Journal — "Static in Cellphone Study" ("Cellphone Study Sends Fuzzy Signal on Cancer Risk" in print edition; see also blog listing, below) May 29-30
Die Welt (Germany) — "Mobile Phones Are Safe" May 18
Yale Environment 360 — "Are Cell Phones Safe? It's Too Early to Tell" August 2

Press Releases & Statements

Advisory Group on Non-Ionising Radiation (AGNIR, U.K.) — "Brain Tumour Risk in Relation to Mobile Telephone Use: Results of the Interphone International Case-Control Study" May 25
American Cancer Society (ACS) — "Major Study Complicates Debate over Cell Phone Use and Cancer Risk" May 18
Australian Centre for RF Bioeffects Research (ACRBR) — "ACRBR Position Statement on Interphone" May 17
Australian Mobile Telephone Association (AMTA) — "Interphone

Finds No Increased Risk of Brain Cancer from Mobiles" undated

Australian Radiation Protection and Nuclear Safety Agency (ARPANSA) — "Statement on Interphone Study" May 17

BioInitiative Working Group — "Experts Call for Changes in Cell Phone Design, Warnings, Ban on Use by Children" May 17

CTIA—The Wireless Association — "Statement on the Interphone Study" May 17

Danish Cancer Society (ACS) — "Ten Years of Normal Use of a Mobile Phones Does Not Lead to Brain Cancer" May 28

Diagnose-Funk (Switzerland) — "Interphone: 19 million for a Censored Result" May 18

Electric Power Research Institute — "EPRI Comments on Interphone" (Cost: $5,000) June 4

Environmental Working Group (EWG) — "International Study: High Cell Phone Use May Raise Tumor Risk" May 17

Finnish Cancer Society — "Interphone: Cell Phones Do Not Increase Cancer Risk" May 18

Food and Drug Administration (FDA, U.S.) — "No Evidence Linking Cell Phone Use to Risk of Brain Tumors" May 17

GSM Association — "GSMA Welcomes Publication of Interphone Results" May 17

Health Protection Agency (HPA, U.K.) — "Interphone" May 18

Institute of Cancer Research (U.K.) — "Largest Study Reports on Brain Tumours and Mobile Phones" May 17

International Agency for Research on Cancer (IARC) — "Interphone Study Reports on Mobile Phone Use and Brain Cancer Risk" May 17

International International Commission on Non-Ionizing Radiation Protection (ICNIRP) — "Note from ICNIRP on the Interphone Publication" May 18

International EMF Collaborative — "Counter-View of the Interphone Study" May 17

Johannes Gutenberg University (Germany) — "Use of Mobile Phones Does Not Perceptibly Increase the Risk of Development of Cerebral Tumors" May 17

Karolinska Institute (Sweden) — "No Increased Risk of Brain Tumors After 10 Years of Mobile Phone Use" May 17

Mobile Manufacturers Forum (MMF) — "Biggest Study Ever Reports on Mobiles and Brain Cancer" May 16

and "Inaccurate Claims Related to Interphone Study" June

National Cancer Institute (NCI) — "Study Finds No Overall Increased Brain Tumor Risk from Cell Phones" May 18

PRIARTEM (France) — "After Ten Years of Waiting, Partial Publication of the Interphone Study" May 17

Robin des Toits (France) — "Interphone: Robin of the Roofs Questions the Scientists" May 16

Swiss Research Foundation for Mobile Communication — "Mobile Phones and the Risk of Brain Tumors: First Evaluation of the Interphone Study" May 17 (in French)

and "Comment on the Final Report of the Interphone Study" May 17 (in German)

STUK — Radiation and Nuclear Safety Authority (Finland) — "Results of Large International Cell-Phone Study Published" May 18

World Health Organization (WHO, Geneva) — Electromagnetic Fields and Public Health: Mobile Phones updated Fact Sheet No.193, May

Blogs
