

Smart Meters Pose Cancer/Health Risks- Medical expert warns

Dr. Carpenter states, "We have evidence...that exposure to radiofrequency radiation...increases the risk of cancer, increases damage to the nervous system, causes electrosensitivity, has adverse reproductive effects and a variety of other effects on different organ systems. There is no justification for the statement that Smart Meters have no adverse health effects."

Dr. Carpenter further advises, "An informed person should demand that they be allowed to keep their analog meter"
