defend our product laws.

## WORLD COUNCIL *of Product Laws*

Remove all band-aid organizations that cannot handle ill health. Where some volunteer screams. I have found a child. Where another screams. I have found the arm and the legs. Just because we did not follow the product law.

**Controlled by serious  
engineers, doctors and lawyers.**

**Set demands on manufacturers, politicians and get rid of  
all band-aid organizations that can't handle after-effects.**
