

Comments on Notice of Inquiry, ET Docket No. 13-84

August 30, 2013

Office of the Secretary

Federal Communications Commission

445 12th Street, SW

Washington DC 20554

I have been injured by RF radiation that complies with current exposure limits.

I was forced to leave my home, graduate school, work, relationships, church and pretty nearly all the rest of my life in 1992.

I was then living just north of San Francisco, and was made ill repeatedly by Sutro Tower and numerous other exposures to EMFs and radio frequency. I had migraine, and frequently experienced a seizure-like disorder which made walking difficult so I frequently had no choice but to stay home.

I moved to the remote high desert in Northern Arizona, where I have been able to recover substantially by avoiding exposures.

Avoidance is becoming harder even here because new cell towers are being erected all the time.

It's very common for me to receive inquiries from people all over the U.S. who need to find a place to live where they can avoid RF exposures.

I receive many dozens of inquiries per year from people who are newly sickened by RF.

The frequency of these new inquiries has increased steadily over the years.

Please lower your exposure limits to protect people like us who were productive until we became ill. Susan Molloy
