

FCC COMMENT

I am a health educator and syndicated radio journalist covering the health consequences of microwave wireless, non ionizing radiation for the last fourteen years. I have interviewed researchers, and public policy makers on the topic from across the globe, and read research going back to the 1960s. There is no doubt in my mind of harm both to the environment and to humans. I get new calls daily from people who are getting ill after receiving a smart meter or with the installation of a cellular tower near their home.

In addition, I am now getting ill as well, and can no longer travel to highly populated urban environments without feeling poorly. I'm experiencing the same symptoms of insomnia, heart irregularities, low blood pressure, high resting pulse, headaches, stomach distress and body aches as the people who call me regularly.
