Washington, DC 20554

Dear Sirs/Ms.
I have been injured by radiation that complies with current expose limits. The standards need to be revisited, non thermal effects of radiation must be taken into account, as well as the CUMULATIVE LEVEL of radiation from multiple sources.
Current standards are grossly inadequate and do not reflect the vast amounts of honest independent (vs wireless communication industry related) research showing serious harmful biological effects directly resulting from radio frequency.
Sincerely,
Lois Sachs
