

MD KENDAL LEE SMITH #64770-

As a licensed subcontractor to Valleywise Maryvale Mental Health at 5102 W. Campbell Avenue, Unit 602, Phoenix, Arizona, 85031 U.S., 480-344-2000, a Federally Qualified Health Clinic administered by the Health Resources and Services Administration for The United States Department of Health and Human Services, MD Kendal Lee Smith #64770 is subject to not only a hierarchy of purported American authorities which are factually franchisees of foreign for-profit corporations—operating under color of law—she is also acting as a foreign agent, and as such, she is subject to report her status per, the Foreign Agent Registration Act.

CRUEL, UNUSUAL PUNISHMENT /GASLIGHTING / MOLESTATION / TORTURE

June 29 (13 days after an already protracted, initial 72-hour only observation period expired), patient, Amina Shahadah Bennekaa, complained about experience having blood drawn by a Valleywise Maryvale Mental Health Unit 602 technician whilst two bystander techs commented, “We’ve never seen anyone as white as paper (only a few shades lighter?) like this before.”

In contrast, presiding MD Smith brazenly dismissed Amina’s feelings of “dizziness, nausea, near-death”, as being: “common among other patients.”

WILLFULL MISCONDUCT—

LATER, in a paradoxical-180, enterprising MD Smith offered to hold Amina’s hand whilst injecting poison into her body—a “deal” to win Amina’s release—a reiteration of unconscionable coercion to contract; and “only sick people (hold. this. thought...) get reactions—you don’t have to worry, you’re healthy😊 ..”

The proclamation of Amina’s “good health”as rationale for Amina “not to worry” about a court order for one-year (projected longer per, annual review?!—see Chronology of Events) of monthly latent acting injections of a chemical soup which has known side effects of seizures, twitches, death
SORELY EVIDENCES BASELESS SUBSTANTIATION FOR CAUSE
(other than personal enrichment) for this death sentence, and— DEMANDS THE FALSE COURT ORDER—and, any CONTRACT pursuant to—BE QUASHED / VOIDED, FOR CONSTRUCTIVE FRAUD; MEDICAL MAL-PRACTICE; TRAFFICKING PERSONAL HEALTH INFORMATION; UNCONSCIONABLE COERCION.

FURTHERMORE, “..it’s like the Covid shot..” MD Smith assuaged nostalgic, to assure! Amina comply (against her own best interest!) to self-collusion of her own! genocide—as undisclosed medical personnel are unlawfully conscripted military employees; mercenaries—subject to their foreign paymasters’ vigil, their ROI’Z!—for whichever investment agenda..?

Oh? Really? In how? Many? Ways? Are 12 monthly latent acting injections of anti-psychotic poison like the Covid jab? What? did? MD Smith mean? Exactly?

An mRNA carrier of nano chipZ?

Coercing victims to self-harm?

A ruse for death by chronic dis-eases caused by pharmaceutical poisoning?

Immunity from liabilities of side effects, such as auto-immune compromises, cancer, cardio, diabetes, seizures, twitches, death?

A fake remedy for a non-existent cause of a non-existent dis-ease?

A direct subsidy, a cut of the return on investments in a Life Force Value Annuity?

The crime of denying avail to lesser-invasive nervous system regulation practices as a FIRST-line of care—rather than deployed as MITIGATION OF SIDE EFFECTZ!—evidences blatant patronization between pharmaceutical stakeholders to convert living beings into chattel for enslavement, genocide.

To boast these ruses on the Valleywise Maryvale (or any pharmaceutical-franchisee) website not only confounds the paradox of a cosmetic application for their “social score”—especially! since pharmaceutical industry-written legislation has strategically imposed immunities against iatrogenic harms—but exacerbateZ! their LIABILITIES FOR CRIMES AGAINST LIVING PEOPLE.
