

JOHN STRICKLER, 205-771-4105, Licensed Associate Addiction Counselor, and Director of Outpatient Behavior Health Programs, with Valle del Sol, attended, on Tuesday July 7, 2026, a staff meeting (to where I was invited to also attend, per phone) regarding Amina S. Bennekaa's discharge from Valleywise Maryvale Mental Health, 5102 W. Campbell Avenue, Unit 602, Phoenix, AZ 85031, 480-344-2000, and where presiding MD Kendal L. Smith, facilitated John Strickler's unfounded fear of Amina's inquiry of the Valleywise booklet instructs regarding patient's right to refusal, as if it was a personal threat.

Swiftly, zealously, Strickler commanded that a police car would confiscate Amina's custody may she miss any of her monthly scheduled appointments. Coerced latent active injections with known side-effects of seizures (often treated with opportunist ant-seizure medication), death (an extreme sentence for failure to show proof of cause!) or forced blood withdrawals (to prove self-medication) in exchange for non-custodial care—evidences blatant coercion to unconscionable contract, medical mal-practice, mis-carriage of justice, to say the least—but, obviously! conversion of a living being to chattel for unlawful enslavement to foreign for profiteer agents!

Now, after EIGHT weeks (this report, Thursday, August 13, 2026) NO EVIDENCE has shown that Amina is a drug addict (until this time); and—moreover—only a vague "SMI" (Serious Mental Illness) diagnosis has FAILED to show CAUSE (other than self-enrichment) for the administration of anti-psychotic medication for Amina, the purported custodial medical institutions respectively Urgent Psychiatric Care (UPC), 1201 S. 7th Avenue, Phoenix, AZ 85007, 602-614-7600; Valleywise Maryvale Mental Health 5102 W. Campbell Avenue, Unit 602, Phoenix, AZ 85031; 480-344-2000; and Valle del Sol 1209 S. 1st Avenue, Phoenix, AZ 85007, 602-258-6797, are liable for remedies to medical malpractice-practice for showing lack of capacity and competence.

Moreover, despite a July 13, 2026 release to home, we must continue to protest (until this contract / order is VOID / QUASHED) that Amina's custody might change, according to whim! at any monthly determination! evidences a GROSS denial of Amina's self-determination, and her right to refuse a deadly treatment, or choose a lesser invasive trauma-informed nervous system care.
