Brief Comment	Currently, I am super hyper sensitive to exposures from various radiofrequency radiation, especially cell phones & cell towers & microwaves. It is critical for those of us who are now having health problems & those who will become health-impacted from this radiofrequency radiation in the future to be more protected from the horrific symptoms & suffering we endure. Please reconsider & revise the current standards to much more restrictive limits for human exposure in order to help prevent & improve the misery & suffering such people do & will endure. This is critical 4 Americans & their loved ones!!! Thank you.
