

Comments on Notice of Inquiry
ET Docket No. 13-84

Received & Inspected

SEP 05 2013

FCC Mail Room

To whom it may concern at The FCC:

I suffer from EHS - Electro-HyperSensitivity, so I was going to ask you to lower the radiation levels.

But actually, my life is already destroyed - I get electrocuted several times a day. I am in severe pain, I cannot function or be anywhere.

I know you will raise the radiation levels to accommodate all of this money-making technology and then more people will get sick & electrocuted like me! Then it will no longer be a dirty little secret... When you or your children or grandchildren get what I have, then you will see what this radiation is doing!

People like me are disbelieved - until they see me shaking uncontrollably & drooling & losing my balance & crying because it burns - NOT ABLE to have an MRI to help me - unable to move anywhere because the signals are everywhere.

Just 15 years ago, before they put up all the cell towers, I was an active, functioning, successful teacher. Now I am living like a hideous Freak!

So, raise the radiation and let's see what happens! I hope you all get what I have!

Ms. Sylvia Keller
207 Ocean Parkway
Brooklyn, NY 11218
