Re: Cease and Desist Letter

**REQUESTING AT&T CELLULAR TELEPHONE COMPANY, D/B/A, AT&T
MOBILITY, IMMEDIATE DISCONTINUANCE OR DECOMISIONING OF
SAID WIRELESS ANTENNA/MICROCELL LOCATED IN ALLEY ON UTILITY POLE,**

[REDACTED]

If you are reading this, you are a hard working individual like me and everything typed below is most likely out of your control. I know you are just doing your job and I respect that. I consider myself to be a man of honor, and kindly ask if there is any way you can help us, or, possibly forward this information to whomever you believe to have good character. My family and I are grateful for any help we can get.

"AT&T" was contacted regarding a matter at this location. The individual that handled this claim advised that the "[REDACTED]" is to be held liable and responsible for the removal, or, disconnection of this site.

The "[REDACTED]", was contacted, documentation was brought forth to the district ward, and this matter was reviewed internally. On 3/7 **my wife was told this site would be removed.** A long story short, after a call with good news from my wife, I was so glad to come back home and I thought I could stick out the pain and wait. As happy as the news was, vertigo hit me and I almost fell when I got out of my truck followed by fast heart rate, extreme chest pressure, shaking, then HOT ear came on and it was hard to function and breathe. I grabbed the NEW replacement lock. My wife and I removed the lock shut off the circuit breaker, installed the new lock with key intact. **Immediately I was relieved! ALL negative side effects were gone, I felt like I could breathe again..! NOTE: Video of side effects along with temp gun reading high of 102.6 on HOT ear, and the struggle during shutdown process.** (It's bad enough to suffer with such a disability but what makes it 10x worse is when you feel ashamed to have such a disease..!)

On 5/5 midday I began to have chest pressure. I then seen our note and the lock was removed and a new more secure hidden shackle lock was installed... If you think you know what severe depression is like add a huge list of additional side effects that cause pain and suffering on a daily for over 5 years..

We contacted the City on 5/9 and are now being told **AT&T has our inquiry?** Was the information given not relevant? Has it been reviewed and denied; **is the health and well-being of people NOT a priority or concern..?** Since my previous request was denied. My wife my children and I do hope you reconsider. We just want to live happy again and don't have the time to waste on court filings but if that's what it's going to take so be it.. However, with GOD as my witness I cannot suffer anymore as my body cannot take this.. Since 5/5 I had 1 day of sleep where I got rest.. I have been up for over 36hrs.. I HAVE to work

in a CSE and need to get rest and I cannot do that with this on... My body just has NOT or cannot adapt to sleep with this again and I don't know why...

This is longer than I wanted but I need to get this done and posted because I need to sleep. Thinking has been hard and typing this hasn't been easy. Simply put I just want peace.. Below was typed days ago when thinking was more clear.

After having well over a month of being able to heal, my son and I have gathered/experienced some interesting information about human healing, senses, and adaptation. A fair share of voice recordings and videos but I will try to keep this brief.. Below is a list of the most common/everyday symptoms we experience and these symptoms have only gotten worse and stronger over the years.....

Health was GREAT when site was turned OFF from 3/22-5/5/25. NONE of the side effects below were present during this time.

***Chest Pain/Pressure, *Head Pressure, *Facial Flushing/Fevers, *Hot Ear Syndrome, At random *Hearing Problems Ear/Blockage(s), Depression, Burning Dry Skin Sensations, *Extreme Anger, *Anxiety, Panic Attacks, *Muscle Joint Pain, *Speratic Chronic Cough, Insomnia, Rapid Heart Rate, Heart Palpitations, Vertigo, Severe Tinitus, Memory Concentration Problems, *Dizziness, *Vertigo.**

The side effects highlighted above are what is or has already begun since this has been turned back ON.. Video logs and recordings for each day. Some days have multiples.

Health concerns for me are at an all-time high. I can NOT even sleep in my own bed without medication. When I do it is NOT good sleep or rest. It is like closing your eyes but waking up and feeling like you never went to sleep. A few nights being woken up with a FAST HEART RATE or palpitations while asleep isn't pleasant at all..

For the health and wellbeing of me, my family, and our community, we hope this information comes across someone humane. We hope this is enough information or evidence for AT&T MOBILITY to PLEASE leave this off or discontinue the use at this site.

Respectfully

[REDACTED]
