Re Regulations: Smart meter monitoring should not be allowed from 8pm to 8am. If we want people to be well, we as a society need to shut down electronic energy during the night and get deep restorative sleep.

Contact Joseph Hernandez (NYS candidate for Comptroller) for all financial data related to health spending in NYS. Please research how ConEdison and other energy company smart meter monitoring continually at all hours has effected health status in the past 2 decades I assert current prescription expenses are because of EMF usage at all hours.. Comparing prescription writing, m ication u care
