The following studies marked with ** are highly important to my concern regarding EMF/RF and the human health.

HEALTH DAMAGE PURELY FROM EMF/RF DATA CENTERS DATA CENTERS

https://5gfree.org/bristol-fb-group-looks-to-5g-to-explain-suicide-clusters/ 5Gfree.org emotional/psychological health. Screen time and suicide

https://childrenshealthdefense.org/emr/fcc-power-grab-being-screen-strong/ Screen Time Addiction reported to be as strong an addition as that of opioids.

https://youtu.be/MoAZnEhkFCs **Included here because it is the intersect of EMF/RF and Cell Tower/Data Centers resulting in health damage.** Oct 2025 Yanasa TV reports Exel Energy company, and the Smokehouse Creek Fire, TX and CO fires that "clear the land" for the **Delta Plains Transmission Corridor** (reported to provide sufficient power to the planned 5700 acre Dallas/Ft Worth **Data Center**). **Reports health impact of data centers on people**: Over half of the houses within 20 miles of data centers suffer distortions (harmonics, appliances, electronics, irregular power flow, electrical fires, brownouts, instability of grid, urgent infrastructure updates to avoid risks). [my concern also: who owns and sells our biometrics, access to "biohackers", who/what controls our activities based on our biometrics, etc.]. See reports of other large-scale Transmission Corridors planned or in place now around the nation.

https://live.childrenshealthdefense.org/chd-tv/shows/good-morning-chd/are-the-skies-poisoning-us/ Variety of activities that "prime" the atmosphere to enhance EMF/ RFs. Ostensibly for climate. Examples: solar radiation aerosol techniques 15 CFR 908.3 – 908.9 activities. Reports in the following sections below link the dispersed aerosolized nanoparticles with EMF/RF to impact human health. **Included here because it is the intersect of EMF/RF and nanotech inhaled/ inserted/ ingested into human bodies resulting in health damage. The 1-2 punch.**

https://rumble.com/v18cw2y-dr.-ardis-show-radiation-effects-crops-and-humans-dr.-lee-merritt-dane-wigi.html Reports EMR/RFs for climate control and food supply. **Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage. The 1-2 punch.**

https://he02.tci-thaijo.org/index.php/sirirajmedj/article/view/251852
The Influence of Electromagnetic Field Pollution on Human Health: A Systematic Review. Sahu et al. summarized the adverse health effects of 5G mobile networking technology under real-life conditions Regarding the cumulative effect of real life directed energies.

https://www.americaoutloud.news/powerful-plant-healers-of-nicotine-and-tobacco-emfs-5g-towers/ April 13, 2024 (minute 42:00-51:00) A.G.E.S. team discusses common health issues that involve EMF, including how EMF of a certain Hz potentiates toxic substances such as black mold. Discusses other destructive Hz values, and optimal Hz values.

* * * *

EMF/RF ACTIVATORS THAT HAVE HEALTH CONSEQUENCES: "DUSTS" "FOGS" "SMART DUSTS" "UTILITY FOGS" CHEMTRAILS

15 CFR 908.3-908.9 lists aerosol and atmospheric activities permitted and requiring reporting and record-keeping. Some of these activities seem to be administered by EPA, NOAA, FAA, more fully described on individual department websites. Of those reported by dispersion companies, or reportedly found in independent testing, many involve "dusts" or aerosols of different sorts, as well as their various properties when activated by EMF/RF. Dane Wigington "The Dimming" and other reports are replete with human health concerns and with all life forms on this earth, and they concern me and I would like them to be researched. **Below are some ways in which these are reported to impact human health.**

https://youtu.be/IuzHOJZNaA4 Reports "smart dust" and chemical "fog" around the nation. **Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage.** Discusses issues regarding smart dust and data centers and IoT, Internet of Things (humans are things in this type of **imagination**), neural dust, utility dust, utility fog, microelectromechanical systems (MEMS) such as sensors, robots, or other devices, autonomous motes. Inhaled nanotech dusts that track location, body functions, states of mind, and which **reportedly also modify body functions, states of mind.**

https://www.brighteon.com/7c3d6d4a-9e9b-48b6-9676-2a5678c85e71 Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage. January 2025 Reports priming the atmosphere for enhanced functionality of various EMF/RFs and directed energies. Interview with Jon Fleetwood discusses aerosolized nanoparticle of multiple substances distributed by drones, transdermal nanoparticle applications, and edible adhesive gels, having human control potential. Reports FAA integrates drones into national airspace. **My concern is that addressing our nation's health problems, devising and administering new solutions and protections, will require the intense cooperation of more than just the HHS agencies and departments. More than just the EPA, more than FCC, more than DOC.**

https://en.m.wikipedia.org/wiki/Smartdust Basic report on varieties and uses of smartdust, neural dust, utility fog microelectromechanical systems (MEMS - sensors, robots, or other devices detect light, temperature, vibration, magnetism, or chemicals.) **Wireless network based**, and are **distributed over an area** to perform tasks, usually sensing through radio-frequency identification (**RFID**). **My concern is that this is a 1-2 punch and these dusts are often not included in the EMF/RF health investigations. Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage.**

> Links at the end of the "smartdust"webpage above go to**:**
> **Neural dust https://en.wikipedia.org/wiki/Neural_dust** nanometer-sized **wirelessly powered nerve** sensors; **brain–computer interface.** The sensors may be used to study, monitor, or **control** the **nerves and muscles** and to **remotely** monitor neural activity. Could introduce neural dust devices into human brains. Dispersion potential similar to smartdust . **My concern is that this is a 1-2 punch and these dusts are often not included in the EMF/RF health investigations. Included here because it is the**

intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage.

Links at the end of the "Smartdust" wiki webpage to, among many others:
Utility Fog https://en.m.wikipedia.org/wiki/Utility_fog Made of **aluminum oxide** nanoparticulate. This wiki articles reports that Utility fog **could be** manufactured en masse to **occupy the entire atmosphere of a planet** and replace any physical instrumentality necessary to human life. By foglets **exerting concerted force, an object or human could be carried from location to location** [**my concern: plasma scientists?**]. [**my second concern: is this true, and if so, who is monitoring their activities. I would hope the answer is multiple organizations are privy to activities to arrive at a healthful solution from every angle for all.** This report goes on to describe virtual buildings could be constructed and dismantled within moments, enabling the replacement of existing cities and roads with farms and gardens. And many other abilities, to the point that utility fog also came to be known as "the machine of the future". If utility dust is real, and in existence and dispersed, please study the effects on human health and well-being, and the intersect of health,personal autonomy, property rights, land ownership and related legal issues. **My concern is, if real, that this is a 1-2 punch and these dusts are often not included in the EMF/RF health investigations. Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage.**

https://builtin.com/articles/ Reports uses of smart dust and its varieties in various fields such as agriculture, environment, autonomous motes using **radio frequency** transceivers to **wirelessly communicate** with one another, and independently gather information to **report back findings to a central hub.** "Sensors talk to a command computer, which then processes the data centrally," [**My concern: these are the Data Centers that are buying out, eminent domaining, overriding community zoning laws, and resident legal property rights and developing health concerns] Smart dust network can initiate automatic responses** and control other devices." Transmitted data is received by the **on-site or remote receiver,** where it is aggregated, stored and further processed. **My concern: it's a 1-2 punch-EMF/RF plus inhaled/ingested/injected nano particles, and these dusts are often not included in the EMF/RF health investigations. Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage, for example, Havana Syndrome type health issues reported by both Beltran on *Redacted* podcast, and independently by Dr. Karen Kingston.**

https://www.brighteon.com/c33db1ee-e69d-469f-a5c6-a5a1bfcf137d Antidote to self assembly nanobots in the body. Reports one pharma company apparently knew this before the patent application was approved, as the reporter found the information in that company's patent **application**. Simple and proven clinical treatment protocols based on information found in the original patent (slide shown by Dr. Mihalcea). See other proposed solutions in Beltran interviews and Dr. Karen Kingston interviews.

https://scientificorigin.com/what-is-smart-dust-and-how-does-it-work

Because of the possible activator role of EMR/RF in the 1-2 punch disease situation outlined in the reports I've included, **my concern is there seems to be a need to address health dangers by enlarging the focus of research, legislation, and regulation to include the 2-prong (possibly more) activities that would be address health vulnerabilities posed by the 1) pharma shields, 2) Federal, State, and Local "defense/security" rights, 3) the "new" Constitutional rights, civil rights, OSHA/Employment Law, Consumer Safety Rights, required to protect health of individuals.** Consideration of FCC, EPA, various security agencies and departments, etc. A good initial action would be to require compliance with the 2021 federal court order to the FCC to update

safety standards from 1996. I would suggest that until such time as that has been researched, and updated and rolled out to all industry and other players involved, there should be a moratorium on new installations, constructions, mass dispersions of inhalable/injectible/ingestible and the various EMF/RF wireless transmission that activate these substances that may activate ill health.

* * * *

EMF/RF/WIRELESS and INJECTIBLE/INGESTIBLE/INHALABLE/ INSERTABLE SUBSTANCES
Cancers, brain damage, neurological health, heart health, strokes, clots, psychological and states of mind, endocrine health

https://live.childrenshealthdefense.org/chd-tv/shows/good-morning-chd/what-is-in-our-blood/ two reports, first segment Dane Wigington (Geoengineering Watch) reports RF "steering" weather. Health concerns: mega fires killing, injuring, displacing people; Hurricanes with wind and floods killing, injuring, displacing people, introducing toxic molds and toxic spills; Second segment Dr. Anna Mihalcea finds **graphene oxide**, **magnetic materials**, self assembling **nano** transmitter/receiver tech with blinking lights, in people who have received recent injectibles. Findings also include large clots of aluminum and other materials, strokes. **My concern is that this is a 1-2 punch often not included in the EMF/RF health investigations.** I**ncluded here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled/injected into human bodies resulting in health damage.**

** https://open.substack.com/pub/petermccculloughmd/p/top-emf-expert-reveals-the-health Jan 2025 Peter McCullough, MD, Nicolas Hulscher interviews Larry Burk, who claims the **U.S. government stopped looking into safety limits just when the cell phone industry took off.** [The timing of **this concerns me** because of the **health implications.** Please verify if, when and who would know the how and why this was decided] Dr. Burk reports **5G began in 2019, first in Wuhan, then in Milan.** [The timing of **this concerns me** because of the **health implications. My concern is that this is a 1-2 punch often not included in the EMF/RF health investigations.** I**ncluded here because it is the intersect of EMF/RF and nanotech inserted/ingested/ inhaled/injected into human bodies resulting in health damage.** This also seems to indicate a health threat by remote, very long distance **wireless activation of nano tech** that has now been injected/ingested/inhaled into our bodies

https://www.healingfortheages.com Two 2-day conferences, (Healing 4 the A.G.E.S. 2023 and 2024) discuss synergistic relationships between EMF/RF et al., body circuitry, now amplified and co-opted by recent injectibles/ingestables/inhalables/insertibles containing **nano-tech**, and metals such as **graphene oxide**. **My concern is that this is a 1-2 punch often not included in the EMF/RF health investigations.** I**ncluded here because it is the intersect of EMF/RF and nanotech inserted/ingested/ inhaled/injected into human bodies resulting in health damage.**

https://www.americaoutloud.news/electric-nutrition-cell-regeneration-and-gods-divine-design/ April 11 2024 Beginning minute 43:00 *Body Electric* Dr. Henry Ealy audio discussion EMF and the electrical components of the human body. Discusses various Hz and specific effects on specific parts of the human body. Discusses impacts of EMF/RF fields on human body: fight or flight, cortisol, interrupted sleep, adrenal/all body systems fatigued at the cellular level. Impacted protein synthesis, pseudo uridine involvement, cell repair, ATP production. Pseudo uridine-modifying enzymes linked to various cancers, mitochondrial disorders, congenital syndromes and others. Discusses remedies using Direct Current (DC) plus colloidal silver into a fibroblast has the ability to make stem cell at any stage. See also Healing 4 the A.G.E.S. Conference 2023 and 2024, slides and audio https://www.healingfortheages.com for both these conferences and subsequent A.G.E.S. reports) **My concern is that this is a 1-2 punch often not included in**

the EMF/RF health investigations. Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/ inhaled/injected into human bodies resulting in health damage.

** https://www.brighteon.com/834c553c-0a71-46b5-8f50-fed9e304c297 **Included here because it is the intersect of EMF/RF and nanotech inserted/injected/ingested/inhaled into human bodies resulting in health damage.** Stew Peters interviews Dr. Karen Kingston on mental health and other health effects caused by inhaled aerosolized nano technology (self-assembling nano-transmitter/receiver tech). Roles of **smartphones, 5G and future G's, EMFs and their interplay with tech in and near human bodies.** Havana syndrome similarities are mentioned. **My concern is that this is a 1-2 punch often not included in the EMF/RF health investigations.** I**ncluded here because it is the intersect of EMF/RF and nanotech inserted/ingested/ inhaled/injected into human bodies resulting in health damage.** See also Dr. Kingston's reports as well as reports of others explaining how nano insertions in the presence of EMF/RF/wireless impact fertility and birth statistics.

** https://youtu.be/GSJ2GHI_AdM **Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/inhaled into human bodies resulting in health damage.** Perhaps the most impactful two reports, particularly for potential influence over/creation of mass emotions/anger/division. **January 26 2026** First of two *Redacted* Podcast interviews with Jesse Beltran, TSCM Certified Investigator discussing **new** "Havana Syndrome"-type complaints. Introductory clips from Kingston **self-assembling nano electronics, blood and brain tissue samples**. Beltran reports even when a body has been dead for a long while, **MAC addresses** appearing on **EMF** readers coming from underground while walking through a graveyard. Reports they are not registered MAC addresses. Reports mental/emotional/ psychological/physical **illness coinciding with/or induced by activating inserted nano electronic transmitter/receivers, semiconductors, biosensors.** Bonny Kellerby case. Reports finding the **same nano microcircuitry** semiconductors **in non-symptomatic** and **non-C19injected.** Reports technique of **scanning persons with RF detector**, surgical removal of micro circuitry/semiconductors/ biosensors. **All patients had similar diagnoses: schizophrenia, some forced institutionalization**. Discusses legal aspects (Section 3024 of Public Law 114-255), informed consent waivers for such issues regarding devices and drugs (Dec 2016), as well as the 2024 Administration extending authorization to cover private entities, universities, NSA. **My concern is that this is a 1-2 punch often not included in the EMF/RF health investigations. Included here because it is the intersect of EMF/RF and nanotech inserted/ingested/ inhaled/injected into human bodies resulting in health damage.** Beltran reports it is capable of **erasing memory sets and inserting new memory sets remotely.** Reports the history of this activity (1972 California prisoners), (2013 TedMed Talk in Israel tip of syringe **nanobots**) **controllable by X-Box. Present in the recent mandated injectibles, zylocaine [other dental anesthetics the same**]. *Satellite Terrorism* (John Hall 2009) (Havana syndrome) (including remotely activated electrical shocks). **Beltran reports huge spike in symptoms accompanied mass rollout of mandated injectibles.** Patients from predictable locations:

1) incarcerated (all the same RFID),

2) soldiers (different RFID from incarcerated but identical to each other),

3) general population (different RFID from prisoners and soldiers, but identical to each other).

He reports **everyone is coming up positive for these RFID** now following mass mandated injectibles. Nonsymptomatic and non-injected are coming up positive for the RFID in scanning. **Not all are symptomatic.** Beltran reports that **those who are symptomatic, are those who have had remote activation ("turned on" by EMF/RF activation),** Those people **non-symptomatic are not yet "turned on"**. Beltran mentions journal

article “Surgical Neurology International “Microwave radiofrequency…warfare” by Deruelle. He asserts we are in a new era of war and CCP, Russia , US, India, UK have this tech. **China just turned on their 6G** [**My note here, not by Beltran: I recently saw reports on YouTube that China residents are selling city dwellings even at half price discount to leave cities]**. Beltran reports humans are now called “homo borg genesis”, **humans are now patentable**, and **questions if humans are eligible for human rights, are able to sign business contracts, earn money and autonomously spend it, and whether human oath as to what happened still reliable, and whether lying is now not your fault** [**my question, not Beltran:** “I don’t recall” or outright lying in sworn testimony congressional hearings now explained?]. Beltran reports new software – Colorado example – to find a “subject” (that means “a person”, a “subject”) via software and locate you remotely. See your photo and biometrics. **Nanotech that is reportedly activated by EMF/RF/wireless was in the recent mandated injectibles, as well as in xylocaine and lydocaine. Also anything with hydrogel and graphene oxide and in the PCR test.** Brain Initiative (Obama) mapped every living organism genome including humans. Beltran reports that when asked if this is the right way to develop human health, the reply was the top elite 1% of the top 1% are the only ones qualified to decide about health.

** https://youtu.be/cpzApiNylSc **Included here because it is the intersect of EMF/RF and the nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Sept 29 2026 Second of two *Redacted* Podcast series interview with Jesse Beltran. Updates the January 2026 report and the description of the **1-2 punch as it continues.** Developments in legislative and oversight committees to establish neurethics to establish charges and penalties. Beltran's research data is now to be published in ACTA, double-blinded, peer-reviewed publication, and makes the subjective experiences of those suffering now objective and quantifiable and identifiable. Beltran and Dr. Hall were covering this since 2010. Dispelled the classification issue and other related concerns. Technical understanding: Silicon harmonics found around specific anatomical areas on the human body. **Graphene Oxidative Silicon Technology f**ound in human tissue, removable now. Reports data used for the Havana Act now shown to be significantly flawed. **U.S. and Canadian** diplomats experienced Havana Syndrome **2016** and what are known as electrical buffeting, but U.S. were discredited, while Canada took theirs seriously. See May 8, 2024 congressional debate on the Havana Syndrome Now known that **RF/EMF attacks are not dependent on the location of the person, it follows them around the planet and is unique to the individual [meaning satellite activation?]** who is often railroaded into the mental health system

(1) **Racial/gender** breakdown: Test sample of 350 Americans with Havana-like symptoms. Statistics showed most likely to occur in Caucasian females >40 yo, single/recently widowed or divorced; followed by Caucasian males, followed by African American, Asian, Hispanic. Same for Midwest, flipped in Chicago (Caucasian and African American reversed), same for East Coast.

(2) Second study: 100 Virginia military contractors and subcontractors with same Havana-like symptoms tested. Specific body areas were tested

(3) Third study: Belgian government [my question: EU Parliament?] asked Beltran to come.

Beltran reports that **technological elites are manipulating body systems to the extent the human body becomes patentable,** and they are **manipulating legal systems to reflect this.** Putin 2010-2014 said the first to master psychotronic weapons will be the first to rule the world. It just takes a switch turned on and all will suffer. Beltran reports history from 1974 of **manipulating human behavior/thoughts, imprint/erase memory sets, syringe delivery of 1000 billion nanorobots** (2016 under contract with Pfz), the 2016 St Albans UK under “ecological attack” advised to eat foods high in silicates (**zeolyte Z)**. Beltran goes on to discuss **Glyphosate**, **which is a melanin inhibitor. Melanin protects us from RF**. [**My notes:** Bayer (HQ Germany) owns

Glyphosate, but Germany bans its use in Germany. China reportedly supplies 80% of Glyphosate]. and Beltran reports massive influx of flock cameras and their data storage, data centers, and cell towers as they need somewhere to keep all the data on our bodies. Reports the ownership and the use of this metadata needs need legal and regulatory protection of Americans. Reports **UN's Agenda 2030 involves all things (IoT)** and gathering all data and storing it. He posits that the **50 percent political/emotional division in our nation is by design.** [My note and reaction: I recall WEF leaders pronouncing the new thoughts we will have: we will own nothing and we will be happy - what nonsense because someone **will** "own it" and is working very hard to control it, administer it, and deny it or approve it. Why are we giving this away, and at such a high price?]

** https://www.americaoutloud.news/why-is-my-blood-blinking-an-intro-to-quantum-dot-bioweapons/ **Included here because it is the intersect of EMF/RF and the nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Feb. 15 2024 America Outloud Dr. Henry Ealy radio interview outlines **various delivery vectors for variety of toxins and nanotech attacking our fundamental human biology.** Dr. Ealy gives an example: **Blue light chemtrails block red light wavelengths which are the lengths that promote cytochrome C, which helps human cell detox and provides energy.** Reports the fundamental impacts are oxygen/co2 gas exchange, microbiome, protein synthesis, DNA integrity, **cancer, autoimmunity (all with plausible deniability).** Dr. Ealy reports the human body is a body of light, a bioelectric device. Major disease means your protein synthesis activity has been disrupted as a result of quantum dot electron theft from your body (usually heavy metal cadium 2-4 nano size, covered in a zinc, selenium, sulfur shell, this creates has a + charge that attracts environmental negative charge and remains locked into quantum dot. This causes electricity (bioluminesence). Interlacing so many delivery variables assists plausible deniability.

** https://www.brighteon.com/2c870a62-f4c6-4386-92f7-f8c61e145822 **Included here because it is the intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Maria Zeee interviews Dr. Karen Kingston, reports **AI nanoparasites that have artificial intelligence**, transhumanism objectives, **apparently 500 vaccines currently in production use these technologies** which **require an ionic charge to become active in the body:** carbon nano tubes, lipid nano particles, spike proteins, genetic editing, mRNA unstable on their own and can't penetrate lipid layer of cells without an ionic charge. [**my question is also**: are these the "Disease X"s that WHO member nations must sign advance purchase agreements for with the pharma companies? See the situation reported with Poland and Romania, who refused any further shipments of these, and subsequently the pharma company caused funding for air traffic control to be frozen for those two countries. https://childrenshealthdefense.org/defender/pfizer-freezes-air-traffic-control-funds-covid-vaccine-contract-dispute-poland-romania/] The interview continues that **5G and other energy sources, fiber optics for this AI/nano lifeform combination to "live".** Discusses current pathogens that have undergone further adaptations, **lipid nanoparticle quantum dots do the AI aspect. ("smart hydrogel")** introduced into body and which then goes into gene editing production within the body where it has been injected or applied to skin or **aerosolized. They are part parasite, part technology (graphene, lipid nano)**. The effect is to kill one human cell at a time and replace it with the hybrid part human part tech.

** https://www.brighteon.com/5211b4ab-c8f6-4728-bdca-a1eaef7573f2 **Included here because it is a concerning intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Dec 2023 Maria Zeee interviews Dr. Mihalcea to discuss microscopy results of **vial contents** of two manufacturers**, as well as all vaccine schedule shots for children,** that reportedly **show no mRNA but instead metals with various physical capabilities such as bioluminescence, silicone signature contents known to be part of self-assembling nano-technology biosensors, quantum dot** technology. Results also showed highly conductive metals such as **tin "clots" that are really tin structures.** Japan team of **surgeons finding hydrogels i**n heart tissues – hydrogels basic for **human/machine interface.** Also a German team.

These bioaccumulate in the organs unless you detox somehow, Discusses this goes for dental anesthetics as well. All this results in **hydrogel rubber-like "clots"** some quite large. These technologies can be **triggered wirelessly remotely** and by AI. These are NOT environmental microplastics. They reportedly **accomplish brain-wireless interface and can re-write thoughts into you.** Symptoms such as no **emotional response or compulsions that hijack your body's electrical energy and/or drains you of doing anything.** Discusses need for consumer protection. https://annamihalceamdphd.substack.com https://zeeemedia.com

[**this note in brackets is my pure conjecture**, but concerns me and I would like it researched and protections put in place: in regard to re-writing thoughts, could this explain what has reportedly occurred with scientists who leave home without phone or wallet etc. and are found later? Could it be researched what, if any, EMR/energy pulse patterns may have been registered on their home or electronics the day of the disappearance?]

** https://anamihalceamdphd.substack.com/p/darkfield-microscopy-of-dental-anesthetics **Included here because it is a concerning intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Darkfield Microscopy Of Dental Anesthetics ANA MARIA MIHALCEA, MD, PHD JUL 27, 2023 [Dr. Mihalcea test sample was same as **Kevin McKernon of Medical Genomics: Articaine Hydrochloride 4% and epinephrine 1:200,000]** Her report: "I am confirming Dr. David Nixon and Engineer Matt Taylor discovery of **self assembly of micro chip** like structures. I also have captured the same **mesh network** from perpetual **spheres** that create the devices. These same spheres are what I have seen **in people's blood.** Some blood findings: Transformation Of Blood Documented Via Darkfield Microscopy - CDB/**Morgellons Use Blood As Substrate To Create Polymer Hydrogel Network** ANA MARIA MIHALCEA, MD, PHD JUL 11

https://m.x-mol.net/paper/detail/1454210493930438656 This potential **sensor** platform for exhaled breath analysis. Dental anesthetics **Lidocaine, procaine, and procainamide** were used as model compounds to test the **detection mechanism** of the PLABD **Included here because it is a concerning intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://m.x-mol.net/paper/detail/1493602356550782976 **Included here because it is a concerning intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Journal article and accompanying diagram of **smartphone** interaction for signal detection: "A chromogenic reaction-free **distance-based** paper device for facile **detection of microRNA** via viscosity **amplification** and surface hydrophobicity **modulation**" **Sensors and Actuators** B: Chemical (IF 8.4) Pub Date: 2022-02-12 DOI:10.1016/j.snb.2022.131570 Lang Zhang 1 , Jun Chen 2 , Huihui Yang 1 , Zhenning Yu 1 , Yuzhi Xu 3 , Si-Yang Liu 4 , Zong Dai 4 , Xiaoyong Zou 1 **Distance-based microfluidic** paper-based analytical devices (μPADs) are simple and user-friendly detection platforms for disease screening, environment monitoring … a novel chromogenic reaction-free distance-based (CRFD) μPAD strategy for sensitive and accurate quantitation of microRNAs (**miRNAs**) via …. **Target** miRNA in sample is ..A **smartphone-based auto-reading system (SAS)** …promising for **rapid detection in complex biosystem.[my note: meaning "human"?].**

[my note: a concern that when researching the professional research literature and the social scientist messaging to public, particularly within the EMF/RF/wireless and health intersect, you will find a continually different terminology for similar/same type entities. A word shell game that obfuscates and also provides an "escape hatch" when questioned about a substance, in my opinion. One example here was "distance-based microfluidic paper-based analytical devices"]

** https://www.brighteon.com/959493aa-8c41-473e-aff5-d2212685989a **Included here because it is a concerning intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** May 8, 2024 Interview with Dr. Karen Kingston **nanotech** component to **health** treatments.

https://rumble.com/v4reoau-a.g.e.s.-master-class-3-emfs-grounding-and-microsomal-edta.html **Included here because it is a concerning intersect of EMF/RF and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Particularly beginning minute 58:00 Dr. Ed Group discusses EMF/directed energies in the new health paradigm. Minute 1hr:26 min. Dr. Henry Ealy reveals detox methods for heavy metals (in bodies via **nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage]**

REPRODUCTIVE HEALTH and EMF/RF/WIRELESS ACTIVATORS

Sayer Ji substack https://open.substack.com/pub/theofficialmahareport/p/secretary-kennedy-asked-for-the-evidence invited subscribers to refer to his substack entry of the HHS RFI Comment period. So I have included two of the reports which he mentioned that would fit Question 12 of the HHS RFI criteria which asks for evidence of harm at levels below current federal exposure limits. These 2 are:

In 2019, Zendehdel and colleagues measured DNA damage in the blood of 29 power-utility workers and 28 controls. The median **magnetic field** at the work sites was 0.85 microtesla — below the occupational threshold set by the American Conference of Governmental Industrial Hygienists. **DNA damage** was significantly higher in the exposed workers. The authors' conclusion: "Exposure to ELF-MF at levels less than the ACGIH exposure limit can produce DNA strand breaks." (Toxicol Ind Health, PMID 31138035)

Sayer Ji comments: The same year, Esmailzadeh and colleagues compared 462 women with unexplained infertility to 471 controls and mapped each home's distance from **high-voltage power lines.** Women living within 500 metres had more than four times the odds of **infertility** after adjustment (aOR 4.44, 95% CI 2.77–7.11). Their conclusion: "The current safety guidelines for **electromagnetic fields exposure** seems to be not adequate for protecting people from the hazardous effects of the field." (Int J Occup Environ Med, PMID 30685773)

The following are reports I have found

https://www.brighteon.com/974439bf-1e32-4117-990a-2451fe01f436 June 2024 report with Dr. Karen Kingston reports pharma data was kept separate from the government's data, including information regarding fertility (stillbirths, miscarriages, deformities, infertility), regarding myo and pericarditis. She also reports some

foreign governments knew the infertility component and the EMF/RF graphene oxide, quantum dot aspects of shots, aerosols and other vectors of medical "treatments". Dr. Kingston reports that biologics products involved genetic sequences of multispecies chimera plus inorganic entities resulting in synthetic biology, and that they have now been aerosolized and are in foods. Dr. Kingston reports they include such substances as: **Graphene oxide**, a toxic 2-D material that **can self replicate** and is **electro magnetic**. **Quantum dots that emit radiation.** These interact or are **activated with 5G 6G and phone/computers radiation**. **Included here because it is a concerning intersect of EMF/RF and nanotech and electromagnetic metals injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://www.americaoutloud.news/the-age-of-bioweapons-has-begun-yes-there-is-hope/ Aug 2023 report by Dr. Henry Ealy reports **Graphene Oxide in water systems**, that Graphene and graphene oxide have **structures that produce high electrical conductivity.** They **can form continuous networks to reflect, refract, or absorb high-frequency EMF, electromagnetic radiation (such as radio waves, microwaves, and terahertz waves)**. Discusses research on its use to modify the human evolutionary trajectory (**gene modification** using CRISPR etc.) **to cause extinction.** Evidence of infertility modifying/terminating reproduction cycles. **Species predicted to die out in 3 generations.** Discusses primary mechanisms such as the **yeast/bacteria/human microbiome processes, plasmids that continually produce spike glycoprotein that are especially responsive to EMF/RF/EMR, and THz waves. It takes over your microbiome and kills.** This study **Included here because it is a concerning intersect of EMF/RF and nanotech and electromagnetic metals injected/inserted/ ingested/inhaled into human bodies resulting in health damage.** References John Beaudoin statistical work by state to see actual causation in 2021-2022 of excess deaths in younger.

https://live.childrenshealthdefense.org/chd-tv/shows/good-morning-chd/category-x-with-special-guest-kimberly-biss-md/ **Included here because it is a concerning intersect of EMF/RF and nanotech and electromagnetic metals injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Reports fertility, miscarriage, still births, baby development problems, turbo breast cancer, drawing data from their practice.

https://www.sciencedirect.com/science/article/pii/S0890623822000600 **Included here because it is a concerning intersect of EMF/RF and components and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** Reproductive Toxicology 111 (2022) 34–48 Side Effects of spike protein and toxin-like peptides found in COVID-19 patients on human 3D neuronal/glial model undergoing differentiation: Possible implications for SARS-CoV-2 impact on **brain development damage in fetus and children** with protein peptide toxins in C-19. by Francesca Pistollato, Mauro Petrillo, [...], and Guy Van de Eede In addition to brain development in utero and after, article also explains the toxin mechanism causing **sharp rise in fetal deaths worldwide:** In utero EXPOSURE to SARS-CoV-2 (**via parental vaccination**) has been hypothesized to affect the developing brain, possibly disrupting neurodevelopment of children. .. viral RNA was detected in the amniotic fluid and S proteins were detected in the fetal membrane at 8–13 gestational weeks [21]. This study provides evidence of persistent placental infection by SARS-CoV-2, which could be causative of hydrops fetalis and intrauterine fetal demise during the first trimester of pregnancy [21]. (i.e., increased miscarriages of vaccinated parents). **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://daystar.tv/player/37118/409048 Dr. Karen Kingston, "State of Emergency" pt 1 Mandates, Infertility, and reproductive organs **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://daystar.tv/player/37118/409406 Karen Kingston, "State of Emergency" pt 2 Mandates, Infertility, and reproductive organs **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://live.childrenshealthdefense.org/chd-tv/shows/doctors-and-scientists-with-brian-hooker-phd/patient-betrayal-corruption-of-healthcare-informed-consent--physicianpatient-relationship/ Dr. Brian Hooker interview with Dr. James Thorp, OB/GYN discussing pregnancy outcomes and other gynecological issues **Included here because it is a concerning intersect of EMF/RF and components in components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://youtu.be/QEjr_Myb9MA Dr. James Thorp, OB/GYN September 2026 testimony before the Canadian Parliament's Allison Inquiry regarding pregnancy outcomes, fertility, and other gynecological issues most recent data (2026). **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://live.childrenshealthdefense.org/chd-tv/shows/friday-roundtable/infertility-crisis/ March 31, 2023 interviews with Dr. Thorpe, OB/GYN and Dr. Kim Biss, OB/GYN regarding rising infertility rates. **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.**

https://lc.org/newsroom/details/220131military-whistleblowers-reveal-shocking-truth Testimony before Senate committee from medical billing data reveal uptick following the mRNA shots. Including a 471% increase in codes for female infertility, 300% percent increase in miscarriages, and 156% increase in congenital malformations (infant children). **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://daystar.tv/player/37118/401886 Dr. Lawrence Palevsky discusses fetal damage, fetal deaths, infertility or fertility damage to men and women and data in pediatric and gynecological practices. Dr. Mikovits, virologist, discusses damage by the shots to syncytial placenta. **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://articles.mercola.com/sites/articles/archive/2024/01/05/infertility.aspx According to an April 2023 report by the World Health Organization, infertility now affects 1 in 6 people globally. Even among healthy couples under the age of 30, 40% to 60% fail to conceive in the first three months of having unprotected sex. The pharmaceutical solution to infertility treatments are expensive. The article comments, "I believe our species faces a future in which only the rich will be able to reproduce."

https://www.brighteon.com/cf33f72f-ac04-45ec-8729-18506ebe2901 Hagmann Report 2023 Interview especially beginning minute 4:20 , Chicago Council on Global Affairs/Schwab, WEF/Schwab regarding transhumanism by 2030 (Agenda 2030), features clips from WEF/Pfizer CEO using medicine tablets to insert implants tracking device/substance, Discusses additional health-related and financial mechanisms of population control (World Government Summit 2022, WEF), including how much and what type of transportation allowed, food/grocery caps, farm crop and livestock controls. Clip of speech by Juval Harari

(WEF "prophet") that humans are hackable, and that the notion they have a soul and spirit and God-given free will – "that's over". Continues with Dr. Tennpenny (drtenpenny.com) who outlines the upcoming social scoring system **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://live.childrenshealthdefense.org/chd-tv/shows/good-morning-chd/do-vaccines-cause-infertility-with-ryan-cole-md/ June 10, 2022 interview with Dr. Ryan Cole and CDC present data on infertility, fetal demise. **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.**

https://rumble.com/v2c624e-obgyns-speak-first-obgyn-panel-breaking-their-silence-on-covid-shot-adverse.html Panel discussion of fertility data made public following court ordered FOIA documents. Judy Mikovits discusses syncytin damage. Other expert discussion: Dr. Christiane Northrup, Dan McDyer, Dr. Kim Biss global data 2022, Dr. Poppy Daniels patient experience in private practice. Dr. Thorp, OB/GYN Dr. Biss, OB/GYN discuss embryos not developing, sperm in men not normal. Steven Greer ER disclosures. **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ ingested/inhaled into human bodies resulting in health damage.**

https://childrenshealthdefense.org/defender/pregnancy-covid-rsv-flu-vaccine-hesitancy/ mRNA and fertility Oct 18 2023 Fertility groups on social media are seeing a spike in demand for sperm from men who have not been injected with the COVID-19 shots. Sperm Donation USA, America's largest sperm donation group https://onlinelibrary.wiley.com/doi/10.1111/andr.13209 BNT162b2 vax impairs total motile sperm count, but begins to recover after 5 months except for one in 4 men, which for them continues to decline. SafeBlood Donation, launched by Swiss Naturopath George Della Pietra, is seeking to open blood banks which offer plasma from those who have not been injected with the COVID-19 shots. Italian study showed 94% of those experiencing symptoms following the **components and nanotech injected/inserted/ingested/inhaled into human bodies resulting in health damage.** …were found to have metallic particles in their bloodstream, according to The Epoch Times, which reported plain enough that **metallic particles resembling graphene oxide** and possibly other metallic compounds . . . have been included by manufacturers. **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.**

https://live.childrenshealthdefense.org/chd-tv/shows/good-morning-chd/fast-tracking-drugs-faucis-new-replacement-more-good-morning-chd/ August 9 2023. Discusses minute 8:50 increased stillbirths according to German and Swiss data, before rollout. Discusses data 100% increase of heart attacks and strokes **in children ages 1-2yo** born to mothers who received the shot. Minute 21:00 infant (1st 28 days) **all cause neonate mortality,** comparing 0 shots, 1 shot (hep), and 2nd shot. Minute 34:00 Discusses use of insects to deliver biologics. **Included here because it is a concerning intersect of EMF/RF and COMPONENTS IN nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.**

https://childrenshealthdefense.org/defender/switzerland-miscarriages-stillbirths-covid-shots International data regarding miscarriage and stillbirth. July 28, 2023 **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.**

https://rumble.com/v5p0u4b-pfizer-harmed-sexual-health-the-government-was-complicit-dr-naomi-wolf-self.html Amber May Show interview with Dr. Naomi Wolf regarding heart, and other damage to reproductive ability. Discusses electronics component. Notes her book **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.**

https://www.youtube.com/live/zg6KDRq_XqA Sept 2025, Dr. Naomi Wolf presents findings of the trial data to the European Parliament. She reports that a preponderance of trial data and research was on women's reproductive functions, not at all really about a respiratory virus. **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.**

https://lc.org/newsroom/details/111722-world-leaders-agree-to-implement-vaccine-passports-1 **Included here because it is a concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.** Dr. Naomi Wolf, tech company CEO, reports outlook as a result of **the concerning intersect of EMF/RF and components in nanotech injected/inserted/ingested/ inhaled into human bodies resulting in health damage.** Outlook reports health control out of the hands of the HHS and into the hands of the WHO, and WEF, manufacture around the globe, WHO-controlled genetic platform hub and data control, using WHO regulations (not U.S. regulations) to control manufacturing standards, distribution, choice of medications, protocols, international travel, digital passports and global digital health networks, tracking apps. **And "the data" is in the EMF/RF/tracking sensors and biometric data, cell towers, and data centers. It is using EMF/RF/Wireless activators of the inserted/injected/inhaled ingested nanotech transmitters/receivers.**

* * * *

It's not about the vaccine, it's not about the virus, it's about data. And once this rolls out you don't have a choice about being part of the system." Naomi Wolf https://lc.org/newsroom/details/111722-world-leaders-agree-to-implement-vaccine-passports-1

It's not about HHS, but the aftermath IS about HHS. And the aftermath depends on the moral compass of the people of this nation, God's mercy, the integrity of the U.S. Constitution and body of law, freedom of information, and the intellectual capabilities and courage of the American people. – Linda Mohler
