1. Dr, Zory Glaser compiled his first **radio frequency (RF)/microwave bioeffects bibliography in 1971** as a result of his Ph.D. His studies, into non-ionizing radiation exposure from RF/microwave sources–and potential adverse effects on military personnel–led to the development of the RF bioeffects laboratory at the Naval Medical Research Center.
You will see more information about the esteemed Dr Glaser and his important work for the United States Government. At the top part of this website you will see "Documents by Title" or "Documents by Date" from the options at the top. There are hundreds of studies and data showing clear evidence of harm from RF microwave radiation. **https://zoryglaser.com/**
