Sex tape

I feel like Sophia is playing a sex tape. It's the same audio but not with the sound effects of trucks or trians. It's just her and the guy. I also feel like she's been using some sort of magnetic weapon to get me out of the house now. It makes my ears hurt and echo. Gambit was affected by it as well.

She would be the type to make a sex tape and play it until she leaves the house
