Summary of Information

Regarding Colette Cowles, there is a governmental team that is targeting MAGA supporters, trafficking, and hacking into Colette Cowles iPhone mobile device for a tap through a phone call and connecting to her mail. There are multiple teams that are playing games (party poker) attacking Colette Cowles boy aiming at her temple, nipples, knee, left toe, left ear, ankle with a pumped weapon system, Trumpet (LRAD, acoustics, tones), and a Cyclone (boat crew). There were also someone associated with Alah (Muslim) along with military projects that were called the SATAN project & nanotech science program. The nanotech science program was attempting to erase Colette Cowles memories by inhibiting the GABA (gamma-aminobutyric) which connects directly to neural circuits. The group was using Alpha waves (Alpha Rhythm/Berger's waves) which act as a bridge between the conscious and subconscious levels.

The company that was identified was Max security, a NEX server being used, along with a Blue Dot network (BDN). BDN is internationally recognized and used by government, private sectors, civil societies, and trade unions. There were groups that were identified as well called the Black Clover. The NEX server transfers data, creates personal databases, computer compatible, minimum of 2 cores, 3.4 GHz, doesn't need internet to use, and has double synchronization through the cloud system (Dropbox, Drive) and the server. Max security is a
