Unknown female: "You left me, go get your fucking pencil and write it down, ok now read it back to me, ok now read it again, read it again, It's not 45 videos, no. File this fucking letter every God damn day, and then send me a copy then I can take that letter and say that their not doing. But if you participate on what their telling you to do without showing them that you know your rights and fighting back your rights and their just gonna to have you fucking talk to him." **Unknown male:** "It could be anyone of us, really." **Unknown female:** "Could be anyone of us, and that's the problem.
